

## Welcome to Phoenix Endodontics!

### Payments & Fees

The fee for our services will be based on the treatment required to correct your endodontic problem. During your first visit we will discuss the probable number of visits, their length, and the fees involved.

Endodontic fees usually range from \$900 to \$1,500 per tooth and it is our policy that suitable arrangements for payment be made at the time of treatment.

Payments can be made by cash, check or credit card. We accept **MasterCard, Visa, Discover & American Express**. (A \$50 returned check fee will be charged for any check that is returned by your bank).

### If you have Dental Insurance:

As a courtesy we submit any claims for you to your insurance carrier, but filing an insurance claim does not relieve you of **responsibility for your bill**. Allen Endodontics is not responsible for any coverage denials by dental plans. We require any co-pays and deductibles to be made at the time our services are rendered.

Our practice is committed to providing the best treatment possible for our patients and we charge what is usual and customary for our area which may be different from your insurance company's benefit schedule and the actual reimbursement to us.

Remaining balances **AFTER** insurance has paid are due and payable at that time. Unpaid balances after 30 days will be charged late fees and interest.

### If you DO NOT have Dental Insurance:

For those without dental insurance we require **payment in full** at the time of service.
